WELCOME TO JWOC 2025!

WELCOMING ADDRESSES OF THE LOCAL AUTHORITIES

MAURIZIO FUGATTI - Governor of the Autonomous Province of Trento

Trentino is ready to host the 2025 Junior World Orienteering Championships. An event with athletes from more than 40 nations and a busy program of trainings and races that will involve over 1,500 participants and generate about 20,000 overnights. In fact, on the same days, the prestigious "5 Giorni d'Italia – 5 Days of Italy" will also be held. A great orienteering festival that will attract athletes and supporters from all over the world.

These are important numbers that honour the intense work done by six teams of the Trentino's Orienteering Federation. With the support of their respective national Federations, Trentino Marketing, the Tourism Boards of Trento and Valsugana Tourism Board, they have managed to bring this important international event to the Altopiano di Piné and Valsugana.

Trentino has always been a land of sport and these Championships represent an opportunity to combine spectatular races with the enhancement of our natural landscapes.

A heartful thanks therefore goes to the entire organizing committee, with the knowledge that the commitment and professionalism of our sports associations and the many volunteers involved will make this event an edition to remember. Likewise, our tourism Boards will be able to manage at best the presence of a large crowd of people to the area.

I therefore wish all the best for the success of this event, which will certainly be appreciated by all participants and will allow athletes, coaches and supporters who will be fascinated by this ever-expanding sporting discipline to discover our splendid territory.

Happy Junior World Championships to everyone!

- MAURIZIO FUGATTI – Governor of the Autonomous Province of Trento

FRANCESCA GEROSA - Councilor for Sport of the Autonomous Province of Trento

Trentino, the sportiest Italian province, is the ideal location to host the JWOC2025, which will take place between the Piné Plateau, the Cembra Valley, the Vigolana Plateau and Valsugana. In these four areas, forests and natural slopes will test the athletic and technical skills of the 350 athletes who represent 40 nations and will compete for the world youth title in the different types of competitions.

This Championship is a new prestigious event with an international dimension that will both entertain the entire population of our valleys for over a week, thanks to the numerous foreseen side events, and inspire our young people by boosting their desire and passion to practice a sport, exercise in a healthy way and in an outdoor setting.

Hosting this event in Trentino, after 15 years in which it has taken place outside of Italy, is not only a source of great pride, but also the

result of the joint efforts of numerous sports clubs guided by the shared desire to organize such a big event.

This objective has been also achieved through the involvement of hundreds of volunteers, to whom I am most sincerely grateful. They have been working for months to give athletes and technicians from all over the world an unforgettable week in Trentino.

Good luck and happy World Championships to everyone.

- FRANCESCA GEROSA -Vice-Governor and Councilor for Education, Culture and Sport, Family, Youth and Equal Opportunities Policies of the Autonomous Province of Trento

ROBERTO FAILONI - Councilor for Tourism of the Autonomous Province of Trento

The Junior World Orienteering Championships, an important sporting event, have returned to Italy after over 16 years, and the venue chosen is Trentino.

This choice is a source of immense pleasure for us, as it means that the natural beauty of our province and the skills and organisational ability of our sports federations and clubs have been unanimously recognised, both at national and international level.

For one week, several thousand sportspeople, including athletes, technical and supporting staff and managers from 40 different countries will stay at our facilities. These are significant numbers that will undoubtedly put the hospitality system in our area to the test at the beginning of the summer holiday season.

Trentino will also be able to distinguish itself in these circumstances,

thanks to the quality of our services and to cooperation with local tourist offices, which will welcome guests to facilities in the Val di Cembra, Piné, Vigolana and Valsugana.

Trentino's tourist system will once again prepare to play host to the participants in the best possible way, enabling them to fully enjoy every aspect of their experience.

At the competition venues, it will instead be the many irreplaceable volunteers who will ensure that everything runs smoothly, always with our full support for their invaluable work.

I wish you all a good time and an enjoyable stay in Trentino.

- ROBERTO FAILONI -Councilor for Handicraft Commerce, Tourism, Forestry, Hunting and Fishing of the Autonomous Province of Trento

SERGIO ANESI – Past President of Italian Orienteering Federation

Hosting a Junior World Orienteering Championships in Trentino is a normal event for someone. Trentino is perhaps the territory where the movement for all sports has consolidated strongly thanks to large investments in sports facilities. But it is also the territory where the Italian orienteering movement was born and consolidated. A movement which uses a map and a compass to practice one of the most beautiful sports in nature that you can imagine. Maybe because the mountains, which are its essence (and of Trentino), have always characterized the beauty of the places and contributed to educate the people who live there. It will be because those who live in the mountains always try to climb high to look at new horizons, but Trentino has a particular charm for the orienteers.

The forests and the villages have a unique beauty that always

transmits strong emotions. The same will be for this great Junior event. Baselga di Piné and the locations where this edition of the World Championships will take place are ready to host an event dedicated to the immersion into nature that will convey strong emotions to everyone. I am particularly pleased to welcome all the athletes and coaches at JWOC, a competition that FISO strongly wanted - alongside the many international events that have characterized this FISO 4-year plan, and which lead us towards the 2026 World Championships.

A sincere THANK YOU to the organizing committee who was able to seize this opportunity and who has replaced in due course another Italian location to which the IOF and FISO had initially entrusted this race. Thanks also for the formula which permit a width involvement of Trentino clubs. A beautiful example of how collaboration can overcome even last-minute difficulties. We hope that on the field the athletes will feel all the emotion for high level competitions. We also hope these moments will represent for each of them a goal, and at the same time a new starting point for other important sporting achievements.

Finally, let me express the gratitude to those who will be close to this great event, from the participating nations, but also to the institutions and sponsors and the volunteers involved.

An "Arrivederci" therefore on the competition ground for an event that will once again be one of the most beautiful stories of world orienteering sport (as Italy has always guaranteed), also because the events sees in field the young orienteers who will measure themselves with the difficulties of the competition, but also with the enthusiasm and emotions that only young people can convey and in the name of fair play.

Happy Trentino, Happy World Championships to everyone. Welcome to Italy!

- SERGIO ANESI -FISO Past President

ALESSANDRO SANTUARI - President of the Organising Committee

The natural playground of Trentino is waiting for you! Nature and sport are a heritage that Trentino recognizes as an enormous wealth to be shared and enhanced.

The Piné Plateau, Valsugana and Val di Cembra, in the heart of the Alps, are proud to host the JWOC2025, which represent an authentic concentration of the values on which we want to build the future of our small mountain communities: love for the territory, attention to young people, connection with many different cultures, and appreciation for voluntary work.

The sport of orienteering represents our communities for many reasons. Its playing field is outdoor, it respects the environment, it combines physical strength and tactical skills, it is silent and leaves no

trace after its passage. Orienteering is a metaphor for life: setting a goal, establishing a strategy to reach it in the shortest possible time, giving oneself intermediate milestones, relying on, and trusting in simple tools to keep the right course.

The event will result from a collaboration between numerous sports clubs and hundreds of volunteers united by their love of sport. Thanks to all of them in advance for the time and passion they will use to organize this event.

I wish all participants excellent sporting results in our forests and in our historic villages, and above all to enjoy a unique experience in Trentino, in Valsugana, on the Piné Plateau.

 ALESSANDRO SANTUARI -Mayor of Baselga di Piné,
 President of the Organising Committee (and orienteering athlete)

VALSUGANA

In the setting of the Dolomites, a UNESCO World Heritage Site, TRENTINO is a region rich in history and evocative landscapes. Trentino is the northernmost Italian region and is almost entirely mountainous, located in the southern side of the Alps. Trentino is able to offer moments full of adventure and fun, but also of rest and relaxation. Evocative natural panoramas await you, occupied by the flourishing vegetation of picturesque valleys.

The event centre is located in BASELGA DI PINÉ, a municipality of 5.000 inhabitants located on a plateau at 1000 meter a.s.l., and surrounded by lakes and mountains covered by conifers; the area is renowned for its tourism features and cultivation of berries.

The location is part of one of the largest valley of Trentino, VALSUGANA, which lies in the eastern part of the region. Valsugana is recognized at international level for the recreative offer guaranteed by lakes, cycling paths, mountain tracks, ski areas, and is the perfect playground for an active holiday.
